33	The Memphis Red Ram X is a non-insulated, leather fencing glove designed to protect employees from penetrating injury risks to the hand while performing barb-wire fence operations. These gloves also provide heavy-duty abrasion resistance—better than the standard leather work glove—and can be used for hot work operations.	11007001	39
33	The Memphis Red Ram Medium non-insulated, leather fencing glove designed to protect employees from penetrating injury risks to the hand while performing barb-wire fence operations. These gloves also provide heavy-duty abrasion resistance—better than the standard leather work glove—and can be used for hot work operations.	11007002	39
33	The Memphis Red Ram Small non-insulated, leather fencing glove designed to protect employees from penetrating injury risks to the hand while performing barb-wire fence operations. These gloves also provide heavy-duty abrasion resistance—better than the standard leather work glove—and can be used for hot work operations.	11007003	39
33	The Memphis Red Ram Large non-insulated, leather fencing glove designed to protect employees from penetrating injury risks to the hand while performing barb-wire fence operations. These gloves also provide heavy-duty abrasion resistance—better than the standard leather work glove—and can be used for hot work operations.	11007004	39
